ABOUT THE JASON FOUNDATION, INC.

The Jason Foundation, Inc. (JFI) was founded in 1997, after the tragic suicide of JFI's President Clark Flatt's youngest son Jason. JFI has never charged a school, educator, church, youth group, or community for the use of any of our programs or services. This assures that "lack of funding" is never the sole deciding factor of who can receive these life-changing/life-saving programs and resources. From a kitchen table start-up, JFI is now considered to be a national leader in youth suicide awareness and prevention. JFI's suicide prevention programs are in use in all 50 states and several foreign countries. To learn more visit JasonFoundation.com.

MISSION STATEMENT

The Jason Foundation, Inc. (JFI) is dedicated to the awareness and prevention of youth and young adult suicide by providing educational programs and resources that empower students, parents, educators, and the community to be better able to recognize and assist at-risk individuals.

WORKING TOGETHER TO GIVE OUR YOUTH A PROMISE FOR TOMORROW

FOR THE AWARENESS AND
PREVENTION OF YOUTH SUICIDE

THE JASON FOUNDATION STORY

Jason Flatt was an average 16 year-old student. He loved sports and played football for his high school. He was active in his youth group at church and had a lot of friends. He had no drug or alcohol problems. He had an older brother, John, and two loving parents, Clark and Connie. It seemed that he loved life and “had everything to live for.” However, on July 16, 1997, everything changed and Jason became a victim of the “Silent Epidemic” of youth suicide.

From this tragedy, The Jason Foundation, Inc. (JFI, as our friends call us) was created by Jason’s family and friends. JFI set out to provide information, tools, and resources that could help friends, family, and educators better identify at-risk behavior and know how to help when someone turns to them hurting, considering suicide. Ultimately, JFI wanted to prevent the tragedy that took Jason far too soon from his family and friends.

PREVENTING SUICIDE AMONG FOSTER CARE YOUTH

STAFF DEVELOPMENT MODULES

JFI offers staff development modules via an online library on JFI’s website or by DVD. The modules are designed specifically for educators but are also useful for any type of youth worker. On average, more than 150,000 teacher trainings are completed each year through JFI modules. For a detailed description of each of the trainings, visit our Online Professional Development Library by visiting our website and clicking on Training.

THE JASON FLATT ACT

Passed in over a third of the states, The Jason Flatt Act is the most comprehensive suicide prevention law in the country requiring educators to have training in youth suicide awareness and prevention. Visit our website for the complete list of participating states. Educating teachers on recognizing signs of concern and elevated risk factors is a major step in saving young lives. The Jason Flatt Act works within a state’s current continuing education requirements by mandating youth suicide prevention training. Although The Jason Flatt Act does not require teachers to use specific programs, many states and school districts use JFI’s staff development modules to satisfy the requirement. Please refer to your local school district with questions regarding requirements for staff development programs. The states highlighted in teal are our JFA states.
